Mr. Rex Rowley
Area Manager
United States Bureau of Land Management
Fillmore Office
P.O. Box 778
Fillmore Utah 84631

Dear Mr. Rowley:

A careful review of our mining plan for the County Canyon Mine revealed that we have exceeded our proposed limits on the north side of the quarry.

I have enclosed a map of the quarry along with the area where we are in violation. This encroachment area is 1.16 acres. To solve this problem we propose the following. First, we have surveyed the phase #1 line and staked/marked it. Additionally, we have informed the quarry operators that no future activity is to take place beyond that limit line. Second, this office is currently working on a mining plan revision which will include this area.

If you have further questions or requests on this matter please contacted me at:

Andrew Robinson
